## **About Palingeo**

*Palingeo is an Italian company based in Carpenedolo, founded in 1999, specializing in geotechnics, ground consolidation, and geophysics. It was established from the experience of industry professionals and has established itself as a leading Italian company, offering services such as ground consolidation and waterproofing, foundation engineering, and land reclamation. The company operates on behalf of private clients and public entities, acquiring projects through subcontracting or participating directly in tenders, often in temporary joint ventures with other operators. Its presence spans across the entire national territory, with four local units located in the provinces of Brescia, Mantua, and Messina. Palingeo holds the main quality certifications in its field and focuses on specialized construction in the foundation sector, providing geological and infrastructural services. The Company is active in the public construction sector, basing its business model on research, award, and execution of contracts through direct or indirect channels.*

*To improve production efficiency, Palingeo has adopted Industry 4.0 technologies on construction sites, enabling remote connectivity with the Technical Department through dedicated applications and specific portals. The Company is committed to technological development to optimize production processes and ensure a high level of professionalism in the services it offers.*
